Our Mission Statement: WHO WE ARE

ABATE is a non-profit organization of motorcycle enthusiast from all walks of life. We lobby and educate the government and general public to promote motorcycling in a safe and positive image. We endeavor to enlist the cooperation and participation of all organizations and individuals that share a similar interest in preserving our American tradition of Freedom. We promote motorcycle safety, training & political awareness. We ARE NOT A CLUB OR A GANG. We fund our work through toy runs, poker runs, campouts, and other motorcycle activities. We are your neighbors and friends who work, pay taxes, and get involved with our community. We serve and support our country and believe in freedom. We use all legal means to protect our rights without infringing on the rights of others.

- 🏍️ ABATE of Florida, Inc. is incorporated under the laws of Florida as a motorcycle rights organization or a "MRO".
- 🏍️ ABATE of Florida, Inc. currently is the only political MRO in Florida representing the interests of its members and the motorcycling public at large.
- 🏍️ ABATE of Florida, Inc. is dedicated to securing and protecting the rights of all motorcyclists in the state

ABATE'S Objectives are to:

- 🏍️ Keep all bikers informed on legislative actions and events that affect their safety and rights.

- 🏍️ Promote voter registration and to motivate members to speak up for their rights.
- 🏍️ Promote safety without infringing on individual rights and freedoms.
- 🏍️ Educate the public and Motorcycle Awareness and safety Issues.

ABATE's Accomplishments:

- 🏍️ ABATE has developed & copyrighted "The Motorcycle Safety & Awareness Program" (MSAP). The program is presented to non-motorcyclists to educate them on how to safely share the road with motorcycles. It is taught in local schools & to civic organizations at no charge in the hope of reducing motorcycle accidents and deaths through education, not legislation.
- 🏍️ ABATE had gained a positive and respected position in Tallahassee. Because of our Lobbyist and Legislative efforts, State Representatives are aware of ABATE members and our vigilant quest.
- 🏍️ ABATE reminds travelers every day to "Look Twice Save a Life, Motorcycles are everywhere" through our billboard campaign.

President

Hey y'all. Greetings and wishes that all are getting in some wind therapy (in between rain storms) LOL First up this month is the State Gun Give Away. We still need to sell chances (for a \$5 donation) to win not one, but 2 guns, 1st prize a 30/30 Henry lever action rifle, and 2nd prize, an over/under 12 gauge shotgun! This donated money will be used at State level to continue our work in Tallahassee. One of those chores is to get the money paid by bikers only (when you renew your license plate you are charged a \$2.50 fee if it's a motorcycle) that is supposed to go to Motorcycle safety, education, and awareness programs. The only problem is the governor moves it to a general fund where DOT and others can grab it. Our lobbyist is working hard on this, and is getting closer to success, and will have a new governor after the Nov elections to deal with. So the donations we get with the gun give away will help make that happen. Get some tickets next Chapter meeting (or call Tim "Roadmap" to get some before the meeting).

I went to the Presidents / VP Seminar in Vero July 15, where they discussed a legal issue (more on that at the meeting) and the need to start passing the torch to younger bikers to keep ABATE and its causes alive. Any and all ideas are welcome. Also, for those who didn't make it to the Seminars, I have your packet of information and will bring to next meeting.

Just a reminder, regarding the Nov general election, the primary vote to determine who runs in Nov is August 28, and last day to register is July 30 if you are going to vote in the primary & general election.

RIDE SAFE AND ENJOY.....Zman

Vice-President

Hey all

What a great meeting we had, thanks to all who attended. We (the chapter) needs to stay on track and focused on the toy run coming up in a short few months. Remember to stay hydrated during these hot summer months. Tell every motorcyclist you know about us and invite them to a meeting to see just what we do for them.

Ride safe and ride free

Greg, VP

We are already organizing for our Polk County Christmas Angels Toyrun, trying to come up with some 3 wheeler Rodeo games, if ya have a suggestion give me a shout or any board member. We are all getting older and when that time comes, we may have to do something to keep our knees in the breeze...haha And we all like to get on our Motorcycles and play. We have our state gun drawing, 5 bucks for chance to win either a Henry .30-

.30 lever action or a new 12 gauge shotgun. This fund raiser is very important to our state chapter so lets all our chapter members try and purchase at least 1 ticket. GOOD LUCK! The drawing will be Dec. 8, 2018. I hope we all remember to run your high beams during the day or night, we need to make sure that people see us. please make sure you use your mirrors, if you don't watch behind you as you approach any intersection, or any lane change, people will run ya over, always keep you're head moving and watching, it could be your last... don't take it for granted people will stop or even see you for that matter. Use turn signals, let people know what you're doing, people are driving more distracted than ever! that's all for now. RIDE SAFE RIDE OFTEN AND RIDE IT LIKE YA STOLE IT, ROADMAP

Also State products are available, you can check out what's available on the website @ www.abateflorida.com

Safety

This month's report is about pot holes. We all see them and as much as you and I both we try to avoid them. Potholes are a big problem. With the high heat and asphalt cracking to water filled up from rain they are by no means a biker's friend. So we see them and move on. However there is something we can do. The next time you see a potholes. Remember where it is at. Every county and or city has a public works department. A simple search can get you to the right department and you can report it. Let them know you were riding when you discovered it. The area will be repaired. By all of us doing this. This will help the local municipality repair the roads quicker.

Until next month ride safe and see you in third gear

Hey y'all...here's the latest from Tallahassee and beyond...Zman

THE HUNT FOR THE GOVERNOR'S MANSION

Floridians are watching two competitive gubernatorial primaries that are being conducted in different manners.

On the Republican side, DeSantis is hoping to complete a Scott-2010-style upset of the establishment favorite, Agriculture Commissioner Adam Putnam. That would be similar to what Scott did to former Attorney General Bill McCollum.

DeSantis has tried to paint his opponent as a career politician and has been aided as Putnam faces widespread scrutiny for his agency's handling of the state's concealed-weapons licensing process. However, potentially the biggest difference in the race was on display this week.

DeSantis held a campaign event and a fundraiser in the Orlando area with Donald Trump Jr., while avoiding a potential joint appearance with Putnam in the GOP stronghold of The Villages.

Putnam has fought back by slamming DeSantis, a frequent guest on Fox News, for campaigning from a TV studio in Washington. But momentum has appeared to swing toward DeSantis, who has already pocketed potentially the biggest get in the primary battle: the endorsement of Donald Trump Jr's father.

Meanwhile, the Democratic candidates debated Wednesday at Florida Gulf Coast University in Fort Myers and showcased few major policy differences. Instead, they relied on issues of gender, race and degrees of opposition to President Trump --- oh, and for some, lots and lots of money --- to ingratiate themselves to their party's base.

Former U.S. Rep. Gwen Graham appeared in a hot-pink blazer to offer a striking contrast to her dark-suited male opponents, called herself a "mom" who once worked for a school district and emphasized her strength as a mediator in a Republican-dominated Congress.

Tallahassee Mayor Andrew Gillum used African-American icons Martin Luther King Jr. and former President Barack Obama to set the stage for a history-making victory that would make him Florida's first black governor.

Former Miami Beach Mayor Philip Levine boasted of accomplishments as an elected official, where he dealt with climate change, passed an ordinance to raise the minimum wage, created inroads for the LGBTQ community and reformed the police department.

"I'm not somebody that just talks about things. I actually get them done," Levine said.

And Orlando-area entrepreneur Chris King continued to portray himself as a progressive vying for a new generation of voters among candidates who “have to win the contest of ideas.”

One of the biggest differences from prior Democratic debates was that the event included Palm Beach billionaire Jeff Greene, who entered the contest after a second debate had already been set up last month.

Greene, who lives next door to Trump’s Mar-a-Lago resort, made a point of noting he hasn’t been afraid to take on his island neighbor when asked how he would work with the president.

“The problem is we haven’t had anyone who can get the message out and to fight these Republicans dollar-for-dollar, toe-for-toe-for-toe,” Greene said. “I am committed to do that. I will put up my own money to get out there and fight these Republicans and I will back up the down-ticket races that will turn Florida blue.”

Greene in recent weeks has dumped at least \$9.6 million of his own money into the contest.

Of course, Greene’s self-funding has a long way to reach the \$13.5 million Scott has put up for his U.S. Senate campaign, which means the governor has spent nearly \$100 million of his own money for three statewide contests starting in 2010.

RESTORING FELONS RIGHTS TALLAHASSEE --- Restoring the voting rights of felons has long been a flash point in Florida politics.

Democrats want to quickly restore the rights of felons who have served their sentences and are trying to re-establish themselves in society. But many Republicans, including Gov. Rick Scott and Attorney General Pam Bondi, oppose quick restoration, arguing that felons should first have to prove they won’t return to lives of crime.

While the debate has raged for years, Florida is in a pivotal period.

A federal appeals court Wednesday will hear arguments in a challenge to the constitutionality of Florida’s lengthy rights-restoration process. U.S. District Judge Mark Walker this year ruled that the process is unconstitutional, writing, in part, that it “strips the right to vote from every man and woman who commits a felony” and leaves ex-felons at the mercy of the whims of Scott and Cabinet members, who act as the state clemency board.

But the state appealed Walker’s ruling to the 11th U.S. Circuit Court of Appeals in Atlanta, contending that the governor and Cabinet have the authority to determine rights-restoration procedures. The appeals court gave the state a preliminary victory by blocking a Walker order that would have required officials to come up with a new restoration process by an April 26 deadline.

Regardless of the outcome of the legal fight, the rights-restoration issue will continue at least until the November election.

A political committee known as Floridians for a Fair Democracy has put a proposed constitutional amendment on the November ballot that would require automatic restoration of rights for most felons after they have completed terms of their sentences. The proposal would not apply to felons convicted of murder or sexual offenses.

STATED URGES DISMISSAL TO CHALLENGE TO GUN LAW Attorney General Pam Bondi’s office this week urged a circuit judge to dismiss a challenge to a law that imposes strict penalties on local governments and officials who violate a restriction on regulating guns and ammunition. Numerous local governments and officials are plaintiffs in the lawsuit, which was filed in April in Leon County circuit court. The case is rooted in a decades-old law that gives the state power to regulate firearms and ammunition and “preempts” the ability of local governments to approve such regulations. In 2011, the Legislature approved stiff penalties for local governments and officials who violate the state preemption law, including potential removal from office and fines. The municipalities allege in the lawsuit that the penalties are unconstitutional. But Bondi’s office this week filed a motion to dismiss the case on a number of grounds, including that the local governments’ arguments are “speculative” because the state has not threatened to enforce the law against the plaintiffs. “Plaintiffs do not allege that any of the defendants named in these actions (or any other state official) has ‘actually threatened’ them (or anyone else) with enforcement of the challenged provisions,” the motion said. “Instead, plaintiffs allege only that, because they wish to enact

and enforce ordinances that may be preempted ... they are concerned that they may, at some indeterminate point in the future, be threatened with enforcement by some entity or individual they do not identify. Accordingly, these actions should be dismissed for a lack of judiciable case or controversy.” The case has been assigned to Leon County Circuit Judge Charles Dodson

FROM THE AMA National and Regional News MILWAUKEE - The Harley-Davidson Motor Co. announced it may shift to overseas production of motorcycles for the European market to avoid stiff tariffs approved by the European Union in retaliation for U.S. tariffs on European products. Harley says President Donald Trump's tariffs on steel and aluminum will cost Harley as much as \$20 million this year, with European Union retaliation adding \$45 million in costs. The company has plants in India, Brazil and Australia, where production for its European customers will move. The European Union raised U.S. motorcycle tariffs from 6 percent to 31 percent. Harley sells about 40,000 bikes a year in Europe. MEDINA, MINN. - Polaris Industries Inc., which produces the Indian brand of motorcycles, said it may shift some production to its plant in Poland because of the European Union tariffs on motorcycles with 500cc or larger engines. The move would include the production of motorcycles aimed at the European market. Polaris said the tariffs will add \$15 million a year to the company's costs if it continues to ship U.S.-made motorcycles to Europe. The Twin Cities Business Journal reports that Indian Motorcycles are manufactured and assembled in Roseau, Minn.; Spirit Lake, Iowa; Osceola, Wis. and Huntsville, Ala. Manufacturing and assembly also takes place in Monterrey, Mexico. Polaris' Opole, Poland facility is 345,000 square feet and has a capacity for 500 employees, according to the company. It opened in 2014 for manufacturing off-road vehicles. WASHINGTON, D.C. - The U.S. Environmental Protection Agency announced higher proposed levels of ethanol for 2019, which could lead to increases in the number of stations selling fuel blends containing more than 10 percent ethanol by volume. The 2019 renewable volume obligations announced June 26 call for 19.88 billion gallons of ethanol to be blended into the nation's vehicle fuel supply in 2019, up 3 percent from the 19.29 billion gallons mandated for 2018. All of the proposed increase is in advanced biofuels-those made from non-food sources-while the amount of ethanol derived mainly from corn remains flat at 15 billion gallons. The AMA opposes any increase in the amount of ethanol the government mandates for U.S. vehicle fuels, because none of the estimated 22 million motorcycles and ATVs currently in use are approved by the EPA to use fuels containing more than 10 percent ethanol by volume. The AMA also fears that higher-ethanol blends, such as E15 will begin to push ethanol-free and E10 fuel out of the marketplace, much the way E10 has marginalized E0

. State News HONOLULU - Gov. David Ige (D) vetoed a bill that would have allowed motorcyclists to use the right shoulder to navigate around congested traffic. H.B. 2589 passed the state House and Senate, with a two-year sunset provision. Ige also has reportedly said he will veto any lane-splitting legislation that reaches his desk. NEW YORK - The New York Motorcycle & Scooter Task Force has set up a Checkpoint Alert System for riders. The AMA urges New York-area riders to take advantage of this service. Those who sign up for the Checkpoint Alert System get notifications about motorcycle-only checkpoints in New York City. The system also allows them to warn other riders about MOCs. The AMA supports the work of the NYMSTF on this practice and its fight for riders' rights in the city. Whether it's discriminatory checkpoints, ticketing riders for daring to open their face shields at a stop light, unfair congestion pricing proposals or the unnecessary impounding of parked motorcycles for minor infractions, the NYMSTF has organized a community of riders to fight back. Motorcyclists can connect with the NYMSTF on its website (www.nymstf.org), Facebook page (www.facebook.com/groups/nymstf/about) and Twitter to stay up to date on the group's efforts to address motorcycling issues in New York City.

Webmaster

Hi Polk County,

I had someone tell me that since we were able to modify the helmet law, ABATE does not have a mission any longer. I said WRONG!!!

1. The people in Tallahassee who know what is best for us (LOL) are constantly trying to force us to wear helmets again. It is a constant fight.
2. Texting & driving. We were able to push to make it against the law to text & drive, but it's a secondary offence. We need to push to make it a primary offence.
3. Stiffer penalties. Currently most drivers who hit, injure or kill a biker only get a Violation of

Right-of way ticket. Our lives are worth more.

Help us help you. Spread the word about ABATE!!!

Steve Ammerman
Webmaster.

History of ABATE Of Florida, Inc.

ABATE came to Florida in the mid 1970's. At that time it was a group of individual and unaffiliated chapters. In 1979, ABATE of Florida, Inc. was formed by the individual chapters. This union was the basis for today's organization. Throughout the years, ABATE of Florida, Inc. has strived to be an effective political force for the rights of motorcyclists in Florida. We have also attempted to keep up to date on all legislation on a federal level and have tried to input our concerns to our federal officials. ABATE of Florida, Inc. has hired a professional lobbyist to aid us in our fight for freedom of choice. Our lobbyist as also been instructed to keep a close watch on all State or National legislation that would affect all motorcyclists.
